Australia's classic river journey

The Mitta Mitta boasts one of the highest put-ins in Australia at 680m in elevation. This river packs a serious punch. The continuous grade 2-3 rapids make for a wild descent off the Great Divide. Plummeting between intricate rock formations for 18km will certainly ensure your adrenalin hits overdrive. You'll tackle grade 2 and 3 rapids such as Graveyard, the S bend, Bump and Grind, Big Stopper, Dislocation, The waterfall, Gobbler and Three plus. These technical rapids require many manoeuvres and are guaranteed to test the skills of the most experienced rafters.

History and Culture

During this trip, Australian history comes to the fore, as you will have the rare opportunity to explore 19th century miners' diggings. Afterwards, you can relax and enjoy the grandeur of the steep bare rock gorges which characterise this wilderness area.
