

4 wheel driving is perhaps one of the best ways to tour through the true wilderness of north-east Victoria. These off-road adventures take you remote areas of rainforests and national parks not readily accessed.

Enjoy the moments of billy tea by river rapids, get the chance to meet Australian wildlife such as platypus, koalas, kangaroos, wombats and various birdlife. Added luxuries make 4WD touring an adventure not to be missed. With these adventures, you rarely take the back seat.
